SUPER LUBE? CLEAN ROOM GREASE

Super Lube® Clean Room Grease

Typical Properties

- ▶ Semi-Conductors
- ▶ LCD
- ▶ Hospital/Surgical Equipment
- ▶ Vacuum Grease
- ▶ O-Rings
- ▶ Food Manufacturing
- ▶ Pharmaceutical Mfg.
- ▶ Aerospace
- ▶ Maintenance Grease
- ▶ Rubber Gaskets
- ▶ Plastic Parts
- ▶ Electronic Equipment
- ▶ Computer Equipment
- ▶ Bearings
- ▶ Wafer Fabs

Benefits:

- ▶ Low Outgassing Characteristics
- ▶ High Dielectric Strength
- ▶ Corrosion Resistant
- ▶ Wide Operating Temperature Range
- ▶ NSF Rated H-1
- ▶ Waterproof
- ▶ Excellent Lubricant
- ▶ Contains no Hydrocarbons
- ▶ Safe on Rubber and O-rings
- ▶ Extreme Pressure
- ▶ Will not Separate
- ▶ Absorbs Vibration
- ▶ High Molecular Weight
- ▶ Thermally Conducting

SUPER LUBE? CLEAN ROOM GREASE

SUPER LUBE? CLEAN ROOM GREASE

Super Lube® Clean Room Grease has low dust generating and outgassing characteristics. It is superior in clean room manufacturing and assembly environments.

Super Lube® Clean Room Grease does not contain hydrocarbons which can create carbon build-up at high temperatures.

Super Lube® Clean Room Grease is presently being used in high temperature electronic environments.

Super Lube® Clean Room Grease can also be used in extreme pressure applications and high temperature bearing applications. ASTM D2783 4-ball results exceed 800 kg. NLGI GC-LB rated.

Super Lube® Clean Room Grease outperforms conventional lubricants in oxidation stability, extending service life and reducing periodic maintenance.

Super Lube® Clean Room Grease stays intact over a wide temperature range: -45°F to 550°F (-42°C to +265°C) and does not melt, run or separate.

Super Lube® Clean Room Grease is stable and resistant to harsh chemicals and radiation.
